## Uber Mover 200BB

Double wheel motorized block cart

The Haulz-All Uber Mover 200BB fits the bill for those moving heavy, stackable loads such as bricks, block, flagstones or even boxed goods. This powered block cart is built to withstand the toughest abuse. The deck is made from ½" thick white oak that will not crack or rust. The handles are the thickest available, and the front brace plates are made from ¼" thick steel plate. As a result, the Uber Mover 200BB has become the choice of hardscapers, fence contractors, masons, and general construction contractors to carry materials easily and safely.

At only 24" wide, it will fit through just about any gate or doorway allowing the delivery of work materials that traditionally had to be carried in by hand, a little at a time. The Uber Mover 200BB is a very cost effective alternative to larger equipment such as a Dingo or skid steer that often create another day's work just to fix the damage they create. The (2) 12 volt rechargeable batteries are sealed so it can be stored just like a manual wheelbarrow taking up the least amount of space in your truck or trailer. The drive system is a very reliable sealed transaxle coupled to a DC motor with a design life in excess of 2000 hours. The entire system is controlled by a simple and intuitive throttle control mounted on the handle. Move your thumb forward to go forward – the further you move your thumb, the faster you go up to 3.0 mph. And as with all Haulz-All equipment, regenerative braking is included which will slow down the load using the motor – even driving down hill.

Perhaps the best asset of the Uber Mover 200BB is its balance. The two ¼" thick brace plates provide an indestructible structure, but also act as a counterweight. With 400 pounds of block on the machine, you can hold the handles at hip-height with just your pinkies. Hauling lumber, fence posts, and any large bulky load that would not easily fit into a wheelbarrow tub could not be easier and safer.

**MODEL NUMBER**

Powered Brick &amp; Block Hauler

**DESCRIPTION****PROPULSION:**

MOTOR

DRIVE

POWER, CONTINUOUS

**UM200BB**

Uber Mover UM200BB

Complete Unit

4" dia PMDC 4 pole, 24V, TENV

Single Reduction Open Differential Transaxle

400 watts (0.536HP) at 24V

**MAX WEIGHT CAPACITY:**

HARD LEVEL GROUND

UP 3:1 (33%) GRADE

UP 2:1 (50%) GRADE

650 lbs (295 kgs)

500 lbs (227 kgs)

450 lbs (205 kgs)

**SPEED**

FORWARD SPEED

REVERSE SPEED

0 - 3.0 mph (0 - 4.8kph), Variable

0 - 3.0 mph (0 - 4.8kph), Variable

**BRAKING:**

STATIC (PARK BRAKE)

DYNAMIC (REGEN BRAKING)

MANUAL OVERRIDE

Electromechanical, Fail Safe

Yes

Yes

**ELECTRONICS:**

BATTERIES

EXPECTED BATTERY LIFE

CONTROLLER CAPACITY

(2) 12V, 12AH Sealed Lead Acid

300 to 500 Charge/Discharge Cycles

70 Amps at 24V

**OPERATING TIME\*:**

CONTINUOUS

START STOP

3 - 4 Hours

6 - 9 Hours

**GENERAL:**

TIRE(S)/WHEEL/HUB

TUB

HANDLES

CHARGER

4-Ply, tubed with solid steel hub, 17mm bore,

Solid Oak Deck annd Dash

Ash or White Oak, Std Duty 1.75" thick

2 Amp

**WEIGHTS:**

DRY WEIGHT

SHIPPING WEIGHT

135 Lbs (61 Kgs)

141 Lbs (64 Kgs)

Price (\$869.00) Delivery (\$100.00)

Total Cost Delivered USA 48 States \$969.00

**AVAILABLE OPTIONS:**

SNOW HOG TIRE TREAD: \$10/TIRE

FLAT -FREE TIRE: \$25/TIRE

DUALY AG TIRES: \$116/TIRE

REAR WHEEL KIT: \$30

FASTER TRANSAXLE: \$30

\* Operating times are approximations that are based on normal operating conditions.

Heavy Loads, soft terrain, and/or steep hills will adversely affect range.
