SMALL BUSINESS

Haulz-All powered carts and motorized hand trucks offer small businesses an economical, safe way to haul just about anything. They also offer rental centers a unique revenue-generating equipment. Other hauling equipment is very expensive and often too heavy to be used outside of the warehouse or factory, or loaded into a customer's vehicle.. For example, Haulz-All electric hand trucks are perfect for moving kegs or cases of soda, furniture, and heavy boxes. And since the machine takes up about the same space as an un-powered hand truck, the Haulz-All self propelled hand truck can be loaded right in the delivery truck, or a customer's vehicle at the rental center.

- Party rental businesses have been using both the motorized hand truck and electric cart for moving everything from bouncy rides and tents, to flatware and stage components.
- Delivery companies use the motorized hand truck to quickly and safely deliver goods up and down ramps that would have otherwise been too dangerous to attempt with an un-powered hand truck.
- Concession stand operators have been using the motorized carts to quietly and easily deliver products to their kiosks both inside and outside.
- Grips, sound and light technicians, and band roadies can now move all of their equipment with ease and speed with a simple push of their thumb.
- Rental centers will experience both rental AND sales revenue when offering Haulz-All equipment to their customers.

All Haulz-All powered haulers run off of two 12 volt rechargeable batteries that power a zero-maintenance sealed drive system that has enough power to move up to 650 pounds on a hard level surface (500 pounds off road and up hills). The variable speed throttle in both forward and reverse is simple to learn and controls speed up to 3 mph. Furthermore, the machines are equipped with regenerative braking that allows the operator to slow full loads, even down hills. If you have a mobile hauling task, a Haulz-All powered handtruck or motorized cart will make it easier, safer and quicker.
