Uber Mover 206C

Double wheel motorized contractor wheelbarrow

The Haulz-All Uber Mover 206C is the best general purpose powered wheelbarrow available. It can handle up to 650 pounds on a hard level surface, and its two wheel drive system provides excellent stability. Furthermore, at 104 pounds, it is still light enough to load into a pick up or van, so it does not require a separate trailer for transport. It can handle anything from light mulch to concrete. What ever you are hauling, it will prove to make it easier, safer and as a result raise your overall productivity substantially.

The (2) 12 volt rechargeable batteries are sealed so your Uber Mover 206C can be transported or stored in any position without the worry of leaks or spills. The drive system is a very reliable sealed open differential transaxle coupled to a totally enclosed non-vented DC motor with a design life in excess of 2000 hours. The entire system is controlled by a simple and intuitive throttle control mounted on the handle. Move your thumb forward to go forward – the further you move your thumb, the faster you go up to 3.0 mph. And as with all Haulz-All equipment, regenerative braking is included.

The 206C has been designed for and used in the most demanding applications with little or no maintenance required. The batteries are the only consumable typically lasting about a year, and are not exotic so they can be purchased locally or directly from Haulz-All. It can be operated indoors or out, and is weatherproof so it can be operated in the rain. The Uber Mover 206C is becoming THE most useful piece of power equipment for contractors of every trade.

UM206C

Uber Mover 206C Double Wheel

Complete Unit

4" dia PMDC 4 pole, 24V, TENV
 Single Reduction Open Differential Transaxle
 400 watts (0.536HP) at 24V

MAX WEIGHT CAPACITY:

HARD LEVEL GROUND 650 lbs (295 kgs)
 UP 3:1 (33%) GRADE 500 lbs (227 kgs)
 UP 2:1 (50%) GRADE 450 lbs (205 kgs)

SPEED

FORWARD SPEED 0 - 3.0 mph (0 - 4.8kph), Variable
 REVERSE SPEED 0 - 3.0 mph (0 - 4.8kph), Variable

BRAKING:

STATIC (PARK BRAKE) Electromechanical, Fail Safe
 DYNAMIC (REGEN BRAKING) Yes
 MANUAL OVERRIDE Yes

ELECTRONICS:

BATTERIES (2) 12V, 12AH Sealed Lead Acid
 EXPECTED BATTERY LIFE 300 to 500 Charge/Discharge Cycles
 CONTROLLER CAPACITY 70 Amps at 24V

OPERATING TIME*:

CONTINUOUS 4 - 6 Hours
 START STOP 6 - 9 Hours

GENERAL:

TIRE(S)/WHEEL/HUB 4-Ply, tubed with solid steel hub, 17mm bore,
 TUB 6 CUFT Polyurethane, HD
 HANDLES Ash or White Oak, Heavy Duty, 2.125" thick
 CHARGER 2 Amp

WEIGHTS:

DRY WEIGHT 104 Lbs (47 Kgs)
 SHIPPING WEIGHT 118 Lbs (54 Kgs)

Price (\$789.00) Delivery (\$120.00)

Total Cost Delivered USA 48 States \$909.00

AVAILABLE OPTIONS:

SNOW HOG TIRE TREAD: \$10/TIRE
 FLAT -FREE TIRE: \$25/TIRE
 DUALY AG TIRES: \$116/TIRE
 REAR WHEEL KIT: \$30
 FASTER TRANSAXLE: \$30

* Operating times are approximations that are based on normal operating conditions. Heavy Loads, soft terrain, and/or steep hills will adversely affect range.
