UM306P

Motorized Hopper Cart

The Haulz-All Uber Mover 306P combines great utility with exceptional maneuverability. We shortened the chassis bringing the wheel base closer together so that this electric cart can practically turn on itself. However, don't let its compact size fool you into thinking this little machine is not tough and powerful. It can carry up to 650 pounds on a hard level surface, and 450 pounds up a 2:1 grade in dry or wet conditions. As for safety, regenerative braking to slow down loads on hills, and the electromechanical park brake which locks it into place when the throttle is released means no more runaway loads. The park brake can be manually released so you can push or pull the cart if needed.

Assembly requires no special tools, and usually takes 30 to 45 minutes. The plastic hopper tub is made from an indestructible plastic that will not rust, crack or dent, and carries approximately 6 cuft of material. For lighter materials such as manure or mulch, you can add plywood sides simply by cutting them out and bolting them on. The contents can be dumped by pushing up on the handle bars (the locked parking brake prevents it from rolling forward), or our manual dumping feature that allows the operator to lift just the hopper to dump the contents (like a dump truck). The powered lift option is not available on the UM306 due to its compact size. For a powered lift dump option, see the Haulz-All [UM308M powered cart](#).

The Uber Mover 306P requires almost no maintenance – no gas tank to fill up, no oil/gas to mix, no oil to monitor and change, no clutches, chains or sprockets to adjust. Simply plug it in to a standard 110V outlet whenever it's not in use. The drive system is sealed for life, so the only consumables are the batteries which typically last about a year, and can be replaced in about 5 minutes. The batteries are not exotic and can be purchased locally or from Haulz-All directly. Best of all, it is a snap to operate. One quickly masters the forward and reverse functions since the intuitive throttle control lets you control speed from 0 to 3 mph in both forward and reverse.

MODEL NUMBER**UM306P**

Powered Hopper Cart

Uber Mover 306P

DESCRIPTION

Complete Unit

PROPULSION:

MOTOR

4" dia PMDC 4 pole, 24V, TENV

DRIVE

Single Reduction Open Differential Transaxle

POWER, CONTINUOUS

400 watts (0.536HP) at 24V

POWER, PEAK

MAX WEIGHT CAPACITY:

HARD LEVEL GROUND

650 lbs (295 kgs)

UP 3:1 (33%) GRADE

500 lbs (227 kgs)

UP 2:1 (50%) GRADE

450 lbs (205 kgs)

SPEED

FORWARD SPEED

0 - 3.0 mph (0 - 4.8kph), Variable

REVERSE SPEED

0 - 3.0 mph (0 - 4.8kph), Variable

BRAKING:

STATIC (PARK BRAKE)

Electromechanical, Fail Safe

DYNAMIC (REGEN BRAKING)

Yes

MANUAL OVERRIDE

Yes

ELECTRONICS:

BATTERIES

(2) 12V, 12AH Sealed Lead Acid

EXPECTED BATTERY LIFE

300 to 500 Charge/Discharge Cycles

CONTROLLER CAPACITY

70 Amps at 24V

OPERATING TIME*:

CONTINUOUS

4 - 6 Hours

START STOP

6 - 9 Hours

GENERAL:

TIRE(S)/WHEEL/HUB

4-Ply, tubed with solid steel hub, 17mm bore,

TUB

6 CUFT Polyurethane

HANDLES

1 1/4" Square tube, .100" wall thicknes

CHARGER

Short

2 Amp

WEIGHTS:

DRY WEIGHT

SHIPPING WEIGHT

134 Lbs (61 Kgs)

191 Lbs (87 Kgs)

Price (\$899.00) Delivery (\$117.00)

Total Cost Delivered USA 48 States \$1016.00

AVAILABLE OPTIONS:

SNOW HOG TIRE TREAD: \$10/TIRE

FLAT -FREE TIRE: \$25/TIRE

DUALY AG TIRES: \$116/TIRE

FASTER TRANSAXLE: \$30

* Operating times are approximations that are based on normal operating conditions. Heavy Loads, soft terrain, and/or steep hills will adversely affect range.
