UM308M

Motorized Hauling Wagon

The Haulz-All Uber Mover 308M is our most versatile motorized cart. It is compact enough to drive through 30" gates and doors, yet large enough to carry an impressive payload. The steel undercarriage (chassis) is made from 14 gage steel that had been powder coated (not wet painted) for maximum rust resistance. It can carry up to 650 pounds on a hard level surface, and 450 pounds up a 2:1 grade in dry or wet conditions. As with all Haulz-All products, regenerative braking will prevent runaway loads even driving down hills, and the automatic park brake is a great safety feature that prevents the cart from coasting away on a hill.

The 8 cuft steel mesh bed is a great combination of strength and light weight. The sides can be folded down for easy loading (the deck height is only about 14" off the ground) or completely removed simply by pulling pins. With the sides removed, the 308M becomes a versatile powered flatbed cart that can move lumber, potted plants, tools or any other bulky items. It ships via UPS ground and can be assembled in as little as 30 to 45 minutes. Dumping the contents of the 308M can be challenging since the deck is 48" long even though the locked parking brake prevents it from rolling forward. Therefore the operator can pull a latch and lift just the mesh bed to dump the contents (like a dump truck). For more convenience, the UM308M can be supplied with a powered lift option that uses a powerful linear actuator to lift the load for you just by pushing a button.

The Uber Mover 308M requires almost no maintenance. Simply plug it in to a standard 110V outlet whenever it's not in use, and that's it. The drive system is sealed for life, so the only consumables are the batteries which typically last about a year, and can be replaced in about 5 minutes.

UM308M

Uber Mover 308

Complete Unit

4" dia PMDC 4 pole, 24V, TENV
Single Reduction Open Differential Transaxle
400 watts (0.536HP) at 24V

MAX WEIGHT CAPACITY:

HARD LEVEL GROUND 650 lbs (295 kgs)
UP 3:1 (33%) GRADE 500 lbs (227 kgs)
UP 2:1 (50%) GRADE 450 lbs (205 kgs)

SPEED

FORWARD SPEED 0 - 3.0 mph (0 - 4.8kph), Variable
REVERSE SPEED 0 - 3.0 mph (0 - 4.8kph), Variable

BRAKING:

STATIC (PARK BRAKE) Electromechanical, Fail Safe
DYNAMIC (REGEN BRAKING) Yes
MANUAL OVERRIDE Yes

ELECTRONICS:

BATTERIES (2) 12V, 12AH Sealed Lead Acid
EXPECTED BATTERY LIFE 300 to 500 Charge/Discharge Cycles
CONTROLLER CAPACITY 70 Amps at 24V

OPERATING TIME*:

CONTINUOUS 4 - 6 Hours
START STOP 6 - 9 Hours

GENERAL:

TIRE(S)/WHEEL/HUB 4-Ply, tubed with solid steel hub, 17mm bore,
TUB 8 CUFT Steel Mesh Bed, Removable Sides
HANDLES 1 1/4" Square tube, .100" wall thicknes
CHARGER 2 Amp

WEIGHTS:

DRY WEIGHT 160 Lbs (73 Kgs)
SHIPPING WEIGHT 213 Lbs (106 Kgs)
Total Cost Delivered USA 48 States \$1029.00

Price (\$889.00) Delivery (\$140.00)

AVAILABLE OPTIONS:

SNOW HOG TIRE TREAD: \$10/TIRE
FLAT -FREE TIRE: \$25/TIRE
DUALY AG TIRES: \$116/TIRE
FASTER TRANSAXLE: \$30

* Operating times are approximations that are based on normal operating conditions. Heavy Loads, soft terrain, and/or steep hills will adversely affect range.
